Time to Smoke: 30m · 1h · 2h · 3hrs

Ring Gauges are measured by 64ths of an inch. When you see a 60 Ring Gauge that means it is 60/64ths of an inch in diameter.

Cigar length is measured in both Metric and Standard length. In the US cigars are typically referred to by their Standard length.

Cigar Shapes

Heads of a Cigar

Cigars come in many different shapes. They can either be classified as a Traditional "Parejo" or a group of shapes called "Figurados"

There are many different cigar shapes out there. We listed the shapes that you are most likely to find while shopping in the US.
